Legat, Hans.
COVER FRAME FASTENING FOR ENAMELED BASINS AND THE LIKE, tr. by P. C. C. 28 Mar 61, 8p. (5 figs. omitted).
Order from LC or SLA mi$1.80, ph$1.80 61-19477

Trans. of Austrian patent 183,532, cl. 34c, 28, appl. 22 Jan 54, pat. from 15 Mar 55, pub. 25 Oct 55.

The cover frame or fitting is fixed indirectly to a basin or other fitting by means of supporting elements which can be fastened to the basin flange or other fitting. The suitably bent free edges, which extend over the basin edge into the opening thereof, or portions of said supporting elements abut against the lower side of the reversely bent inner edge of cover frame, thereby preventing both lateral displacements of the cover frame and displacements thereof perpendicularly to the basin opening.
